This ride is a gradual ascent to Trentham East, with a few climbs to test the legs. As with many rides in the region, the roads are spectacular and landscapes vary from turn to turn. You're transported along thick tree lined roads to long, open stretches such as James Lane. By the 30 km mark most of the climbing is done and it's a gradual downhill run to Woodend. Take a break at a café or browse some shops before the final 20 km to Kyneton.
