Activities

Corporate Social Responsibility

Add an exciting point of difference to your next event at Lancemore Macedon Ranges by including a fun and engaging team event!

Our team building events are fun and, importantly involve Corporate Social Responsibility. We can tailor the events to suit your objectives, time frame and budget, with an overall aim to enhance workplace culture and give back to the community.

Activities suited for groups of 4 - 150 delegates.

BIKES FOR TYKES

There will be plenty of fun, hard work and mechanical challenges in this team building program with a twist. With delegates having to solve challenges, work together as a team and build a dismantled bike, it may all seem like too big a challenge. But the smile on the face of an underprivileged child will inspire and make it all worthwhile.

OUT OF THE BOX

The only charity program of its kind in the world. Teams are shown a special Distraction Box which is filled with highly researched and attention diverting items for kids in hospital. Out Of The Box brings them to life in a fun and engaging way. Teams will then find out how their efforts will assist with putting smiles on kids faces all around the country.

KARTS FOR HEARTS

This is not your average kart build as teams test their ability to construct, decorate and then sell their creation. What sets this program apart is the conclusion of the program when all the billy karts are donated to a children's charity. This is your chance to light up the hearts of a child and develop team dynamics at the same time.

LEGO LEGENDS

In every real adult a child is hidden that wants to play! Participants will travel back in time and delight in this childhood favorite that inspires play and imagination. It will be a test of skill and creativity to take the title of LEGO Legends. The playful spin on this program transforms to heartwarming when the lego is donated to a children's charity of choice.
